

**Thank you for all your efforts to refer patients with COPD to TANDEM. March was our best recruitment month to date!  
Well done everyone!**

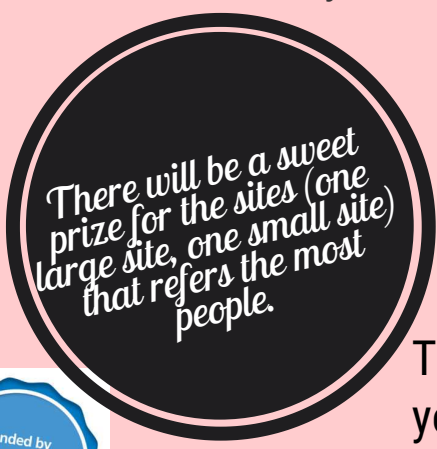

**Spring treats**

**We have now recruited 160 patients and we still have a way to go to reach our 430 target. We need to recruit about 27 study participants each month (1-3 participants as per site target).**

**This means we need approximately 300 new referrals each month to reach this target (25 referrals per site) - as not everyone will be eligible or want to participate.**

**Please refer as many patients as possible to the TANDEM researchers.  
We would like to say an extra thank you to the top referring sites in April 2019!**

**Thank you for sending us your feedback from TANDEM patients in the study.**
